

HARSIMRAN SINGH SAINI

Automation Intern | AI & Marketing Automation

Mohali, Punjab | saini133166@gmail.com | +91 6283094646 | harsimran.digital | github.com/Harsimran46/projects_

SUMMARY

BCA student (expected 2027) and hands-on automation builder focused on n8n, AI-agent workflows, and marketing automation. Builds business-focused workflows for lead qualification, campaign research, appointment scheduling, and lead generation. Combines automation with digital marketing experience to turn repetitive marketing tasks into practical, end-to-end systems.

EXPERIENCE

Social Media Content Creator (Freelance) — Ayurvedic Company | Instagram | Aug 2026 – Sep 2026

- Revived a dormant Instagram account with no posts for over a year by creating and editing Reels, writing captions, and establishing a consistent posting cadence.
- Generated 25 new followers in the first 15 days through organic content, with zero paid advertising.
- Managed content execution from ideation and production through publishing and performance-focused iteration.

PROJECTS

End-to-End Lead Qualification Bot

n8n · Webhooks · AI Agents · Google Sheets · Telegram API

- Built an automated pipeline where website contact-form submissions trigger a webhook, confirmation email, AI lead scoring, qualification, and sales notification.
- Filters low-quality leads before human review and flags qualified leads to the sales team through Telegram.
- Designed the workflow for autonomous 24/7 backend operation with no manual intervention in the initial triage process.

AI Marketing Campaign Researcher

n8n · AI Agents · Marketing Automation

- Built an AI workflow that generates campaign research outputs, ad-copy ideas, audience-targeting suggestions, and other campaign inputs from a single brief.
- Automates repetitive research and drafting tasks performed before launching marketing campaigns.

Telegram AI Appointment Scheduler

n8n · AI Agents · Telegram API

- Built a conversational appointment assistant that handles booking and management through Telegram.
- Uses an AI agent to manage conversation flow and appointment logic automatically.

Lead Scraper & Lead Scorer

n8n · Web Scraping · AI Scoring

- Built a workflow that collects leads from Instagram and Google Maps and sends contact/business data into Google Sheets or a CRM.
- Added an AI scoring layer to prioritize leads by quality for downstream outreach workflows.

TECHNICAL SKILLS

- **Automation:** n8n, Webhooks, AI Agent Workflows, Workflow Automation
- **APIs & Integrations:** Telegram API, Google Sheets, Webhooks
- **Marketing:** Google Ads, Meta Ads, SEO, Rank Math SEO, SEO Content
- **Web & CMS:** WordPress, Elementor, Premium Addons
- **Other:** Lead Generation, Web Scraping, AI Lead Scoring

EDUCATION & CERTIFICATIONS
