- Data Management
- Lead Generation
- Analytics & Reporting
- Content Creation

CERTIFICATIONS

- Diploma in Computer Applications
- 6-Month Digital Marketing Course
- n8n Automation Course
- Google Performance Ads Certified

PROFESSIONAL SUMMARY

Automation marketer combining hands-on Meta & Google Ads campaign experience with AI workflow automation using n8n. Built and shipped 4 production-ready automation projects — including AI voice agents, lead scrapers, and lead scoring systems — to streamline lead generation and follow-up. Currently pursuing BCA while applying technical skills to real-world marketing problems.

PROJECTS EXPERIENCE

1

AI FOLLOW UP VOICE AGENT

Built an AI voice agent using n8n and voice APIs to automatically call leads, have natural conversations, and follow up on inquiries. Integrated with Google Sheets & CRM to log call outcomes.

2

INSTAGRAM & GOOGLE MAPS LEAD SCRAPER

Developed a scraper using n8n to extract targeted leads from Instagram and Google Maps based on keywords and locations. Data is cleaned, filtered, and stored in Google Sheets.

3

AI APPOINTMENT BOOKING CHATBOT

Created an AI chatbot that interacts with users, understands their needs, and books appointments automatically. Integrated with Google Calendar and sends confirmation via email.

4

AI LEAD SCORER AGENT

Designed an AI agent that scores leads based on their behavior and engagement. Helps prioritize high-quality leads for better conversion and sales efficiency.
